Dear Parents: Students that desire to participate in Seminole County Schools’ tackle football programs must show evidence of medical insurance before being allowed to practice or play tackle football. The following information describes a football accident insurance plan that is available through the School Insurance of Florida. You are not required to purchase this plan and may purchase your own coverage. This coverage has limits and exclusions and will not pay for 100% of medical bills. However, your child must have medical insurance or this plan in effect before he is eligible to participate in tackle football. The school district is not responsible for accidents while playing sports or while at school activities. This low-cost insurance plan can also be used to supplement your primary coverage that you already have through your employer, group or family policy. To enroll in the football accident insurance plan, return this form and payment to School Insurance of Florida. Please note: This coverage does not provide insurance for Summer football practices/drills, games, scrimmages, football camps, private leagues or 7 on 7 leagues.

Coverages terminates on December 20th, 2017 or after the team's last official, FHSAA sanctioned game, whichever is first. The “2017 Summer Conditioning Coverage” is effective only during actual participation in school scheduled and continuously supervised weightlifting conditioning exercise. Conditioning is defined as “Weight training is the use of free weights and stationary apparatus. Cardiovascular conditioning is distance and internal training. Plyometrics is the use of pre-set conditioning programs. Conditioning IS NOT teaching sport specific skills and drills, and DOES NOT involve the use of sport specific equipment (i.e. starting blocks, hurdles, rebounders, ball machines, bats, balls, rackets, etc.).” Benefits are limited as specified in the policy schedule of benefits and exclusions. This policy will not cover any injury expense that occurs before or after supervised football activities or while traveling to or from a school supervised, covered activity, except while traveling as a team in a school bus or school district approved van. EFFECTS OF OTHER COVERAGE: The policy contains no cash deductible. The policy will provide the scheduled benefits in addition to other insurance if the total treatment expense is $250.00 or less. Other sources of coverage include but are not limited to, Blue Cross/Blue Shield, group insurance, self-insured trusts, Union Welfare Plans, HMO’s and PPO’s. After the other source of coverage has provided benefits, the student insurance policy will consider payment of the remaining unpaid expenses up to the scheduled policy maximums. If you are also covered by an HMO, PPO, or similar plan, you must follow their rules for obtaining approved provider services and benefits. If you do not use your HMO or PPO approved provider, benefits under the student insurance plan will be reduced by the amount of benefits that could have been obtained if you would have utilized the HMO or PPO approved provider of service. If you have no other source of coverage, the student accident insurance will pay the scheduled policy benefits.
